CONDITIONS OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions or under abnormal conditions, or under conditions not reasonably foreseeable to seller and buyer assumes the risk of any such use. Seller shall not be responsible for incidental or consequential damages, if any resulting from a breach of warranty.

GENERAL INFORMATION

Soil Prep Plus is a soil amendment formulated to restart the soil system. It is specifically designed to provide all the basic nutrients needed to germinate seed and attach sod faster under most growing conditions. Soil Prep Plus is also designed to improve problem soils such as stockpiled soil, reclaimed pond soil, or sub-soils used as topsoil. For native plants, Soil Prep Plus has shown to speed up establishment and reduce competitive grass pressure.

DIRECTIONS FOR USE

Home Garden Use:

Apply 500 lbs. per acre or 11.5 lbs./1000 sq. ft.

New Seed Bed Applications:

Apply 500 lbs. per acre or 11.5 lbs./1000 sq. ft. to seed bed then lightly incorporate into the soil before planting.

Sports Fields and Golf Courses:

For sand-based sports fields, golf greens, and tee boxes incorporate 1000 lbs. per acre (call for recommendations with Specialty Turf & Ag Consulting).

Sod Establishing:

Apply 500 lbs./acre or 11.5 lbs./1000 sq. ft. to the soil before laying sod.

Native Seed Beds:

Apply 500 lbs. per acre or 11.5 lbs./1000 sq. ft. and incorporate before planting.

Reclaim Pond Soil or Other Problem Soils:

Generally these soils will require more than 1000 lbs./acre or 23 lbs./1000 sq. ft. to predictably correct the problem. The most predictable solution to these conditions is to have Specialty Turf & Ag Consulting test the soil and develop a program for the project.
